

DALLAS MUSEUM OF ART

# October Is Art Beyond Sight Awareness Month!

In celebration of visual awareness, the Dallas Museum of Art will host a variety of programs—including hands-on activities, gallery discussions, art-making experiences, and artist demonstrations—that will focus on ways to experience art using senses other than vision.

Artist John Bramblitt will join several Art Beyond Sight programs throughout the month of October to talk about his process as a blind painter, and he will lead workshops that include adaptive techniques for people with disabilities.
